

ASTS Historian Position Description

January 2025

The Historian will act as an Archivist and ensure that documents and memorabilia associated with the establishment and function of the American Society of Transplant Surgeons and its Foundation are maintained on a continuing basis. The Historian will provide the Council and Foundation Board with reports as requested with emphasis on historical highlights, including social and scientific events. The Historian will be directly responsible to the Foundation Board in their functions.

The Historian will also be responsible for special projects as approved by the Foundation Board of Directors that celebrate notable events in the history of ASTS, such as anniversaries. The Historian may also develop relevant, historical project ideas for the Foundation Board of Directors' consideration.
